Please, replace Fig. 3 on p. 276 with the following correct version:

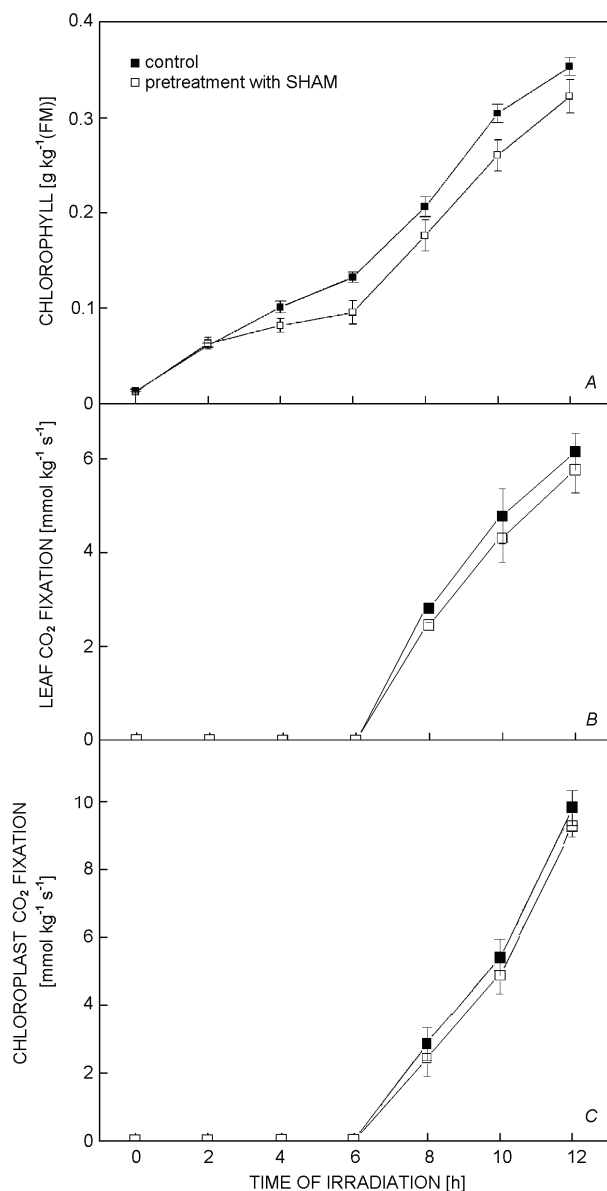

Fig. 3. The influence of SHAM on chlorophyll content (A) and carbon dioxide fixation rate in leaves (B) or chloroplasts (C) during continuous 12 h of irradiation in etiolated leaves treated with 1 mM SHAM (□) or the solvent (■; control) before irradiation. Individual samples taken during four independent experiments. Means  $\pm$  SD.
